

## Maximilian Oliver Press, PhD

Seattle, WA | 206-295-3272 | [maximilian@alumni.reed.edu](mailto:maximilian@alumni.reed.edu) | <https://maximilianpress.github.io/>

---

### EDUCATION

#### University of Washington

Seattle, WA

PhD, Genome Sciences

June 2016

Dissertation: "Observations about the effects of epistasis on evolution and complex traits."

#### Reed College.

Portland, OR

BA, Biology. Phi Beta Kappa

May 2008

Thesis: "Microevolution of *Gasterosteus aculeatus* in the Johnson Creek watershed."

### RESEARCH EXPERIENCE

#### University of Washington

Seattle, WA

Postdoctoral Fellow; advisor: Christine Queitsch.

2016-2017

Highly accurate short tandem repeat genotyping reveals heritable variation, functional effects, and signatures of selection.

- Optimized sequencing assays and software pipelines for genotyping short tandem repeats (STRs).
- Performed functional and evolutionary analysis of natural STR variation in *Arabidopsis thaliana*.

Graduate Research Assistant; advisors: Christine Queitsch and Elhanan Borenstein. 2010-2016

Evolutionary constraint of gene acquisition in prokaryotic evolution.

- Developed computational methods for studying epistasis in bacterial genome evolution

Contribution of microsatellites to phenotypic and epistatic variance.

- Developed genetic analysis methods for studying microsatellite variation and epistasis in *Arabidopsis thaliana*

Independent genetic pathways for thermoresponsive flowering and thermomorphogenesis in *A. thaliana*.

- Phenotyping and genetic analysis of reaction norms in *A. thaliana* strains.

#### Fred Hutchinson Cancer Research Center

Seattle, WA

Research Technician; supervisor: Sue Biggins.

2008-2010

- Genetic and molecular characterization of histone function in chromosome segregation.

#### Reed College

Portland, OR

Undergraduate Researcher; advisor: Robert Kaplan

2007-2008

- Molecular and phenotypic analysis of differentiation among stickleback populations isolated by urban barriers.

### RELATED PROFESSIONAL EXPERIENCE

#### Phase Genomics Inc.

Seattle, WA

Senior Bioinformatics Engineer

2017-present

- Performed computational biology research and technical writing in an industrial setting.
- Designed algorithms, developed software in a cutting-edge genomics service company.
- Worked actively with customers to provide solutions to problems using Hi-C data.

### FELLOWSHIPS AND AWARDS

- 2015: UW Graduate School Fund for Excellence and Innovation Travel Grant

- 2011-2013: NIH NHGRI Genomics Training Grant 2T32HG35-16
- 2008: Phi Beta Kappa (Reed College)
- 2007-8: Miller Undergraduate Research Foundation grant, Reed College
- 2004-8: 3 Commendations for Excellence in Scholarship, Reed College

\*: equal contribution to publication.

**Manuscripts in review**

- **Press MO** et al. (2017). "Massive variation of short tandem repeats with functional consequences across strains of *Arabidopsis thaliana*." bioRxiv: <https://doi.org/10.1101/145128>

**Working manuscripts**

- **Press MO** et al. (2017). "Hi-C deconvolution of a human gut microbiome yields high-quality draft genomes and reveals plasmid-genome interactions." bioRxiv: <https://doi.org/10.1101/198713>
- English translation of Woltereck R (1909). "Weitere experimentelle Untersuchungen über Art-veränderung, speziell über das Wesen quantitativer Artunterschiede bei Daphniden". *Verhandlungen der deutschen zoologischen Gesellschaft* 19 (1909): 110–73. In progress, available at <https://github.com/maximilianpress/miscellaneous/blob/master/experimental-investigations-variation.pdf>.
  - This classic paper originates the idea of the reaction norm in heredity and organismal development, and has not been previously translated to English.

**SELECTED PRESENTATIONS**

- Talk: Thermomorphogenesis Meeting 2016: "PIF4 and ELF3 Act Independently in *Arabidopsis thaliana* Thermoresponsive Flowering". Halle, Germany
- Talk: The Allied Genetics Conference, July 2016: "The variable ELF3 polyglutamine is an epistatic hub." Orlando, FL
- Talk: Congress of the Society for Molecular Biology and Evolution, July 2015: "Evolutionary Assembly Patterns of Prokaryotic Genomes." Vienna, Austria

- Talk: 6<sup>th</sup> International Conference on the Hsp90 chaperone machine, September 2012: "Evolutionary Inference of bacterial Hsp90 functions." Les Diablerets, Switzerland

## TEACHING AND MENTORING

### University of Washington

- **Teaching assistant** (GENOME 351: Human Genetics for non-majors). Spring 2014
- **Teaching assistant** (GENOME 371: Introductory Genetics). Fall 2012

### Reed College

- **Tutor** (Biology 101/102: Introductory Biology), 2005-2008

## PEER REVIEW:

- **Reviewer**: *Nature Communications*, *Nature Methods*, *PCI Evolutionary Biology*, *Matters*.
- **Sub-reviewer for C. Queitsch**: *PNAS*, *Nature Methods*, *PLOS Genetics*, *Human Genetics*, *American Journal of Primatology*.
- **Sub-reviewer for E. Borenstein**: *RECOMB 2012*, *Scientific Reports*.

## SCHOLARLY SOCIETY MEMBERSHIPS

Genetics Society of America.

Society for Molecular Biology and Evolution.

Peer Community in Evolutionary Biology.

## SERVICE AND OUTREACH ACTIVITIES

- **Co-instructor**, GRE preparation course. July 2014, July 2015, (short class for underrepresented minority undergraduates).
- **Organizer**, 2012 NHGRI UW Genome Training Grant Symposium.
- **Instructor**, Basic ideas of bioinformatics, June 2012, (short class for HS teachers).
- **Departmental coordinator**, 2012 Science Education Partnership, Genome Sciences.
- **Restoration volunteer**, Adopt-a-Stream Foundation, (Summer-Winter 2005). Wetlands restoration field work.
- **Volunteer**, Students for Empowering, Educating, Diversity and Service (SEEDS), Reed College chapter (2004-2008). Taught middle school students about wetland restoration.
